

Quality Policy

NMS Group is a company operating in the marine sector. We offer accommodation services (offshore hotel and offshore operation management) with the highest safety and quality standards.

Our quality policy is based on the following principles and behaviors:

- To continually improve our services through innovation, efficient business processes and best practices.
- To build a mutually profitable relationship with our customers, guiding them with our experience to create efficient operational solutions, i.e for supply management, onboard personnel flow and port logistics. At the same time, to provide a “home away from home” with great comfort onboard our vessels.
- To participate in developing solutions to solve our customers’ challenges in a flexible and service oriented manner.
- The quality and safety requirements of the offshore industry are continuously increasing and we will anticipate and meet our customer’s demands.
- All our employees (both direct employees and hired personnel) are responsible for the quality in their work and are a vital part in our ability to offer a service that we can be proud of.
